Re: Assessment account **101711** – Inactive Status

55-11088 is a water right for 60 AF from the South fork of the Provo River and an unnamed spring. On behalf of the Provo River distribution system, the Division has been billing each of the six co-owners the minimum assessment of \$40.

Assessment account 101715 in the name of RRD Investment remains active and will continue to be billed the minimum assessment of \$40. It is not necessary or appropriate that each co-owner pay a separate minimum assessment. Therefore the assessment accounts of the 5 minority owners, 101714, 101712, 101710, 101713, 101895 & **101711** are inactivated.

Designation of an Assessment account as “inactive” refers only to the annual distribution system fee. Designation of an Assessment account as “inactive” is in no way related to the past, present or future beneficial use of water appropriated under water right 55-11088.

Regards,

Sue Odekirk, P.E.

Provo River Distribution Engineer
